

STACK Infrastructure Publishes Inaugural ESG Report

Advancing Sustainable Growth and Community Engagement in the Digital Infrastructure Industry.

Denver, London, and Singapore – September 25, 2024 – STACK Infrastructure (“STACK”), the digital infrastructure partner to the world’s most innovative companies and a leading global developer and operator of data centers, today announced the publication of its inaugural Environmental, Social, and Governance (ESG) Report. This report marks a significant milestone in STACK’s ongoing commitment to corporate transparency and its mission to scale responsibly.

“Publishing our inaugural ESG report marks a pivotal moment for STACK, as it conveys our unwavering commitment to sustainability and social responsibility,” said John Eland, CEO, STACK EMEA, and STACK’s global executive ESG sponsor. “Through strategic partnerships, we are deepening our commitment to resource efficiency, education, diversity, equity, inclusion (DEI), and philanthropy. This report not only highlights the progress we’ve made but also reaffirms our dedication to building a better digital future for our communities, our planet, and our stakeholders.”

The report not only highlights how STACK is embedding ESG principles across its global portfolio, but also sets a clear benchmark for measuring future success of ESG initiatives. It emphasizes the critical role of community engagement and the integration of sustainable development practices in STACK’s growth strategy. By focusing on long-term value creation, STACK aims to ensure that its expansion benefits both the company and the communities it serves.
